

Curriculum Overview - Drama

The Drama department aims to inspire and engage all pupils through a curriculum that teaches all about real life situations and Theatre genres through performance. At key stage 3 we want pupils to be able to learn the life skills that we need when we enter the world after school. How can they be confident or look confident? How to think quickly and creatively, and how to work with others collaboratively. The department also aims to inspire pupils who want to go on further and develop their acting / design skills at GCSE and look at a range of careers that this can help with.
